

Appendix

General Education Requirements

Also: Distribution Requirements or Core Requirements

The University Senate voted these requirements to develop verbal and quantitative skills, curiosity, versatility, critical judgment, moral sensitivity and research skills for all undergraduates. Students will learn of other cultures, how to fit their culture in a wide historical context and how scientific theories relate to experiments.

Every student must meet these University-wide requirements, but students should consult the baccalaureate degree requirements listed by their school or college. All the baccalaureate degrees include the requirements listed below, but the school or college may have added to them. Likewise, the school or college may have deleted some of the courses from which the student may choose. The school or college may refer the student to the Appendix when the requirements and choices duplicate those listed here.

The Bachelor of General Studies program is a junior-senior level program for mature part-time students. The Dean of Extended and Continuing Education may exempt them from the Foreign Language requirement (Group 1) and the one-semester laboratory science requirement (in Group 8).

Services for Students with Disabilities. The University is committed to providing equal educational opportunities and to achieving full participation and integration for people with disabilities. Students are encouraged to contact the Center for Students with Disabilities or the University Program for College Students with Learning Disabilities (UPLD) to discuss their eligibility for services. See Policies and Procedures for Students with Disabilities included in this Appendix.

GROUP 1

Foreign Languages: A student meets the minimum requirement if admitted to the University with three years of a single foreign language in high school, **or the equivalent. With anything less than that, the student must take one year (2 semesters) of college level study in a single language.

GROUP 2

Expository Writing: All students must take English 105 and 109. Additionally, all students must take two W courses, which may also satisfy other requirements. (Note: English 105 is a prerequisite to all W courses.) Evaluative testing may exempt qualified students from the 105, 109 requirement. Students passing English 250 will also be exempted from the 105, 109 requirement.

GROUP 3

Mathematics: All students must enter with a competency level equivalent to that obtained in Mathematics 101, as evidenced by a passing grade on the Q-Course Readiness Test,*** or take Mathematics 101 as a remedial course without credit toward graduation. Additionally, all students must take two Q courses and one C course, which may also satisfy other requirements. (Note: Mathematics 101 or a passing grade on the Q-Course Readiness Test is a prerequisite to all Q courses.) One Q course must be a mathematics or statistics course unless the student attains a high pass on the Q-Course Readiness Test.

GROUP 4

Literature and the Arts: All students must take two courses: one which emphasizes major works of literature which could be elected from English or Foreign Languages (in English translation or in the foreign language), and one which emphasizes major achievements in art, and/or music and/or the dramatic arts.
